

ePractice – The practice management solution to transform your business.

Designed with your business in mind

- **Save time and increase efficiency:** We've a host of products and features designed to help reduce time-consuming admin burdens and maximise the time spent on patient care
- **Improve data accuracy:** Seamless integration into one platform – all based on live data. Invoices, clinical coding, patient and practitioner information, accounting, reporting, payment collection and more
- **Boost your cash flow:** Take control of your finances. Stay on top of who's paid with accurate reporting, secure payments and reminders. We'll save you costs on printing, postage and manpower too with our automated tools
- **Data security:** Information security is at the heart of all of our technology. Trust us, we've the necessary controls in place to protect your sensitive data
- **Single monthly payment:** We charge per practitioner not user. Share the benefits with as many people as required – all without any increase to your monthly charge
- **Support:** Free, friendly and helpful [customer support](#) is available Monday–Friday, 8am–6pm, giving you the flexibility to interact with us in the best way that works for you. What's more, you get free 1-2-1 online training from our [Healthcode Academy](#)

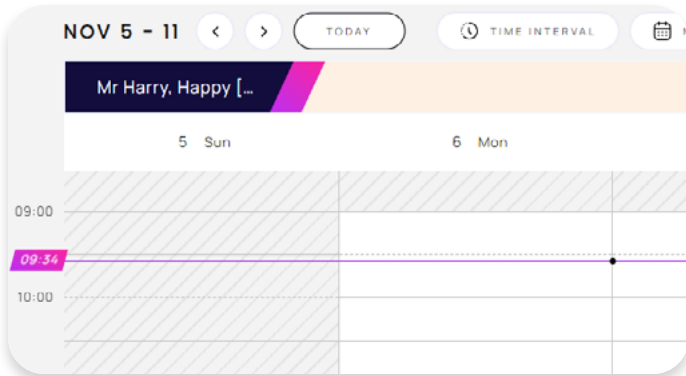

Delve deeper into what we offer

Our range of plans allows you to choose the option that's best for you and your budget.

Electronic bills to insurers (with validation)	✓	✓	✓

What's new?

Found in the same place, Appointments has been completely rewritten. With a new look and feel, it's more intuitive, friendly and easier to use (soon to be integrated with [ICE](#), our online booking solution).

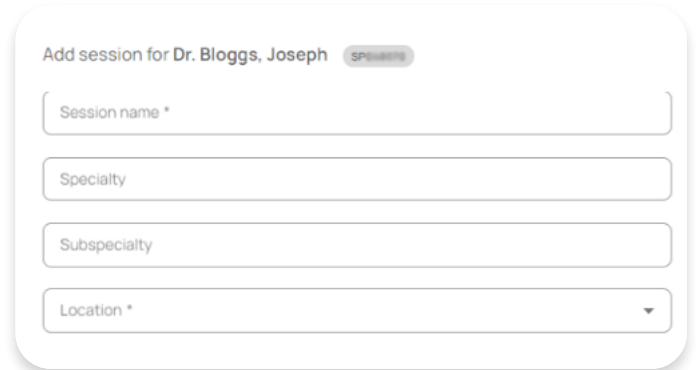

Simple navigation

See your diary in day, week or month view and jump to today with one click

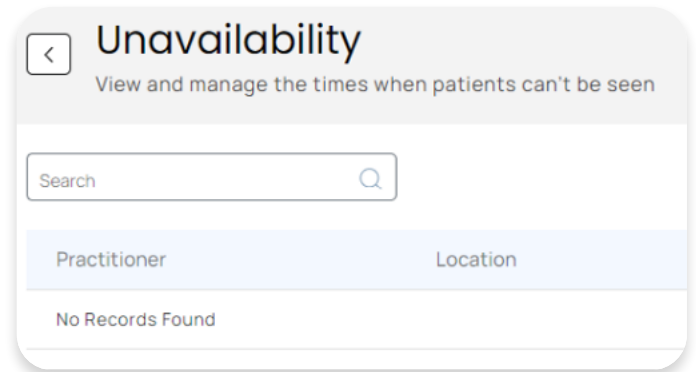

Key information

Icons against patients indicating key information, e.g. outstanding balance and warning note

Sessions

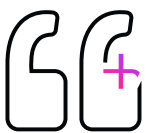

Easy to set up clinic sessions – both individual and recurring

Unavailability

Add your unavailability and sessions for admin or meetings

Don't just take our word...

The new ePractice Appointments has an intuitive design with a clean interface and seamless navigation and effectively presents all the information we need
